Summary

Frontend Developer with 2 years of experience building scalable and responsive web applications using **React.js** and **Angular**. Passionate about crafting intuitive, user-centric, and high-performance interfaces. Strengthened technical expertise through advanced training in React, JavaScript, HTML, and CSS. Eager to contribute to a collaborative development team while continuously enhancing skills and delivering high-quality frontend solutions.

Experience

Software Engineer

April 2024 – Present

iNoesis Technologies Private Limited, Chennai, India

- Developed and maintained **QuickAns.AI** using Next.js, Tailwind CSS, and Ant Design.
- Collaborated with the UI/UX team to create responsive and user-friendly interfaces.
- Implemented new features, optimized performance, and resolved UI bugs.
- Gained hands-on experience in **Redux Toolkit, Keycloak authentication, and API integration**.
- Worked in an Agile development environment, actively participating in sprint planning and code reviews.

Technical Skills

Frontend Technologies: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Redux (Toolkit, RTK Query), StoryBook, Bootstrap, Tailwind CSS, Material-UI, React-Bootstrap, React Router, Framer Motion, KendoUI

UI/UX & Design Tools: Figma, Responsive Design, Mobile-First Design, Cross-Browser Compatibility, Accessibility (WCAG/a11y), Pixel-Perfect Design

API Integration: REST APIs, GraphQL, Apollo Client, Axios, Fetch API

State Management: Redux, Context API, Redux Toolkit, RTK Query

Performance Optimization: Lazy Loading, Code Splitting, Lighthouse Audits

Version Control & Collaboration: Git, GitHub, GitLab

Backend Technologies: Node.js, Express.js, Python

Databases: SQL, MongoDB, Mongoose

Test Libraries: Jest, Vitest

Projects

GrowX.AI – Frontend Developer *Technologies: Next.js, React, KendoUI, Redux*

Built intuitive and scalable fintech interfaces using Next.js to simplify SME banking and financial workflows. Contributed to product research in the UAE fintech ecosystem and supported expansion into international markets.

Roles and Responsibilities:

- Designed and implemented end-to-end frontend flows including Admin Portal and Customer Portal.
- Translated complex multi-bank integrations into simple, user-friendly SME experiences.
- Built responsive, secure, and high-performance UI components.
- Collaborated with backend teams to integrate APIs.
- Improved page load performance by **25%**.
- Reduced API response latency by **20%**.

QUIKANS.AI – Frontend Developer *Technologies: Next.js, Tailwind CSS, Keycloak, Redux Toolkit*

Developed a comprehensive Industrial ChatBot platform including product listing, user authentication, and AI assistant modules.

Roles and Responsibilities:

- Built dynamic pagination, filtering, and responsive UI.
- Integrated secure authentication using **Keycloak (JWT)**.
- Developed and integrated RESTful APIs using Axios.
- Implemented CRUD and organization management functionalities.
- Managed global state using Redux Toolkit.
- Wrote unit tests using **Jest**.

Education

Bachelor of Engineering (EIE)

2018 – 2021

Kongu Engineering College, Erode

Diploma in Engineering (ECE)

2015 – 2017

Kongu Polytechnic College, Erode

Certifications

- IBM Certified Enterprise JavaScript Developer (CEJS11N)
- Web Development with React.js - Certified
